Dear Mr. Line:

As you know, this firm represents the Effingham County School District. I am in receipt of your letter dated May 6, 2020. Although I disagree with your characterization of the School District's handling of this matter or that any students' rights were "egregiously violated," the Board of Education has authorized me to assure that outside adults, including the Gideons, will not be allowed into the classrooms of any of the schools in the School District to proselytize or distribute religious materials. Given that this assurance satisfies the concerns described in your letter, you "may inform [your] complainants that this matter has been resolved."

Yours truly,

James D. Kreyenbuhl
