RECEIVED SEP 25 2017

Dear Boca Helping Hands:

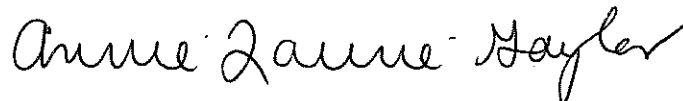

We are contributing \$2,500 earmarked for your work, following the devastating Hurricane Irma. You are one of four state or local groups in Florida with high ratings from Charity Navigator that we are sending money to help support extra relief following the storm.

Nonbelief Relief is a humanitarian adjunct of the Freedom From Religion Foundation, created by its board as a separate charity to ameliorate instances of human suffering and injustice on a global scale, whether the result of natural disasters, human actions of adherence to religious dogma. Nonbelief Relief shall operate consistent with the 501(c)3 code of the Internal Revenue Code.

We think it is important that it be known that secularists are just as charitable, if not more charitable than the religious, but have simply lacked the infrastructure to give as a united group under the banner of freethought.

Most atheists and freethinkers work to make a heaven on this planet, and therefore we greatly appreciate your humanitarian actions. Good luck with your work.

With warmest wishes,

Annie Laurie Gaylor  
Administrator, Nonbelief Relief  
Co-President, Freedom From Religion Foundation
