Re: Fannin County School District

Dear Mr. Line:

This firm represents the Fannin County School District, and I am responding to your letter dated October 30, 2020. We appreciate your bringing this concern to the District's attention. The Superintendent has met with the high school principal, and a plan is in progress to meet with all coaches this week to discuss issues related to the First Amendment, including the Establishment and Free Exercise Clause. The District is confident that all of its schools make good faith efforts to fully comply with the requirements of the Constitution and protect the rights of all parties.

Hopefully this addresses the concern you have. Should you have further need to communicate with the District, you may certainly do so through this office.

Sincerely,

Cory O. Kirby

cc: Dr. Michael Gwatney, Superintendent
