Attention: Christopher Line, Staff Attorney

Dear Mr. Line,

A copy of your complaint alleging that a staff member had proselytized to students was submitted to the employee and building principal, Mr. Todd Dreifort for response. The District, in compliance with board policy KEB, undertook an investigation of the allegations. Human Resources has also reviewed your complaint, the response, and the steps that have been taken to mitigate this issue from occurring. Upon my review, I feel that appropriate measures have been put in place to ensure this does not happen again.

The District has set in place the following: Lessons created by [REDACTED] will be reviewed by his school administration. Further, school administration will conduct random observations of the classroom to ensure appropriate materials are being used and/or displayed.

Thank you for bringing this matter to our attention.

Lori Bird

General Counsel
Scottsdale Unified School District
